

# About CubeDrive

## Affordable Workflow Automation Designed for Business Results

**CubeDrive** is an Ottawa-based technology leader focused on connecting complex enterprise data with actionable business intelligence. CubeDrive specializes in **no-code application development** and **Enterprise AI solutions**, making it possible for organizations to automate their workflows without the need for a traditional development team.

### Our Mission

CubeDrive's mission is to empower businesses to build, automate, and scale. By making professional-grade software accessible to everyone, we've developed a platform that transforms complex business needs into dynamic, AI-enhanced applications at a fraction of the traditional cost.

### What We Do

- **No-Code Ecosystem:** CubeDrive's drag-and-drop builder enables users to create custom tools for CRM, HR, and project management, tailored to their unique business logic.
- **Enterprise AI Integration:** CubeDrive integrates advanced Large Language Models (LLMs) and predictive analytics directly into clients' data workflows, providing smarter decision-making capabilities.
- **Virtual IT Department:** Acting as a strategic partner for growing companies, CubeDrive supplies technical infrastructure and automation expertise to support scalable growth.
- **Data Transformation:** CubeDrive converts Excel files into secure online databases and automates professional document generation, turning manual processes into digital assets.

## Who We Serve

CubeDrive supports a diverse range of clients, including real estate, financial services, non-profits, and educational institutions. The platform provides a "digital backbone" for organizations seeking sophisticated data management and professional-grade UI/UX.
